Each year, school committees consider whether their district should be in the school choice program during the upcoming school year. If they choose not to accept school choice pupils from other districts, they must take a vote prior to June 1 and report the result to the Department's School Finance office. They may also choose to accept new pupils but only in certain grades. Results to date are listed below. School choice districts with an asterisk are serving pupils accepted in past years, but did not enroll new pupils this year.

For information about contacting a district, see the Department's directory profiles at:

Each year, school committees consider whether their district should be in the school choice program during the upcoming school year. If they choose not to accept school choice pupils from other districts, they must take a vote prior to June 1 and report the result to the Department's School Finance office. They may also choose to accept new pupils but only in certain grades. Results to date are listed below. School choice districts with an asterisk are serving pupils accepted in past years, but did not enroll new pupils this year.

For information about contacting a district, see the Department's directory profiles at:

Each year, school committees consider whether their district should be in the school choice program during the upcoming school year. If they choose not to accept school choice pupils from other districts, they must take a vote prior to June 1 and report the result to the Department's School Finance office. They may also choose to accept new pupils but only in certain grades. Results to date are listed below. School choice districts with an asterisk are serving pupils accepted in past years, but did not enroll new pupils this year.

For information about contacting a district, see the Department's directory profiles at:

	School Year 2015-2016 Choice Status	Grades Specified for New Students 2015-2016***	School Year 2016-2017 Choice Status	Grades Specified for New Students 2016-2017***

Each year, school committees consider whether their district should be in the school choice program during the upcoming school year. If they choose not to accept school choice pupils from other districts, they must take a vote prior to June 1 and report the result to the Department's School Finance office. They may also choose to accept new pupils but only in certain grades. Results to date are listed below. School choice districts with an asterisk are serving pupils accepted in past years, but did not enroll new pupils this year.

For information about contacting a district, see the Department's directory profiles at:
